*"I've been a residential and commercial painter for 22 years and have had cleanup to deal with the entire time. I've used many things to try to clean up paint drops or spray on floors, from hot water and rags to name brand wipes, and it's never been an easy task. But when I was given a sample pack of 100 of the Crocodile Cloths from the Sherwin-Williams paint store that I go to, I was ecstatic to find out how easy they made cleanup for me. Their durability for the work I did with them was amazing. Truly the best wipe I have ever encountered in my time in this industry. Now, I think I will never use anything else as long as I can get these. Kudos to these—top-notch and #1 in my book. Thanks for a lil piece of heaven, LOL!"*

*"I've been using Crocodile Cloth since Christmas. There really do raise the game. Unlike other wipes, they stay wet for ages! Really handy for when you need to do a lot of cleaning down. No need to refresh them as much. The size of the wipes are mammoth. The strength of the wipe is tops also. Doesn't tear like big wipes can do. Easier storage as they are not in a hard plastic, so they can be buried somewhere in the van without the fear of cracking and drying out. Overall, I highly recommend these wipes."*

*"I just wanted to say I bought some Crocodile Cloth wipes yesterday and I have to say they were fabulous, as a tin of eggshell got spilt on the carpet. But thanks to your wipes we got it all off. My employers and I were very impressed and will be recommending them to everybody. Fantastic product."*
